# Spartacus Online Training

Our hands-on training for the PWA solution is dedicated to SAP Commerce Cloud for developers in your organization.

# What is Spartacus?

Spartacus is a lean, Angular-based JavaScript storefront for SAP Commerce Cloud.

It takes advantage of progressive web apps.

**PWA**

 **SPARTACUS**

# PWAs in Spartacus enables:

## Improved performance

PWAs speed up online pages that improve UX and conversion rates.

## Mobile-first

It leverages the native capabilities of mobile devices, push notifications, home-screen access, and full-screen mode.

## Works on all devices and platforms

Each PWA works on all browsers, no matter the operating system or device.

**PWA**

 **SPARTACUS**

# Spartacus is:

## Upgradable & extendable

Designed to be upgradable and maintain full extendability.

## Progressive

Fully compliant with PWA standards.

## Open source

Developed by SAP with huge community support.

## Modern

Uses the latest technology in order to keep technical costs low.

# Learn more

Spartacus is changing rapidly. Stay up to date with:

**Divante  
blog**

**Sparta-Town  
meetups**

**Spartacus  
on Github**

You're able to review your code and gather feedback.

It is also a time for a Q&A session and to dive deeper into some topics.

The online demo takes around four hours.

Our offer

# What will I need for the training?

1

## Good to know

Typescript,  
Sass/CSS, HTML

2

## Framework

Angular,  
RxJS, NgRx

3

## Node.js, yarn/npm

Node 10.x,  
yarn 1.16

4

## Angular CLI

Latest stable version

5

## SAP Commerce instance

Own instance 1905  
or access to demo  
instance

6

## IDE and browser

We're using VS  
Code, but it can be  
any editor you feel  
comfortable with

# Why Divante?

## Core contributor

Divante has cooperated with SAP since 2017. We're developing Spartacus together.

## eComm focus

We have over a decade of experience developing eCommerce platforms and solutions.

## Experienced in PWAs

In addition to Spartacus, we've developed other PWA solutions like Vue Storefront and Shopware PWA.

# Divante: empowering eCommerce

We're a global eCommerce solutions and thought leader. At Divante, we're open-source evangelists. Our 280+ experts have delivered over 1,000 projects for global companies.

We build high-functioning MVPs and integrate the technologies of tomorrow.
